

## Baby Changing Services

# Maxi X Nappy Disposal

Hygienically dispose of nappy or incontinence waste. The Maxi X offers a large 60 litre nappy disposal unit that is ideal for high usage areas.

### Key Features :

Pedal operation removes the need for contact by hand

Fresh unit provided on every service

### Fully Serviced

The Maxi Nappy bin is provided with a service agreement which is tailored to meet the footfall needs of the site. This incorporates a container exchange so on every visit the in situ unit is exchanged for a clean, sanitised unit.

After every service, you'll receive an immediate automated email confirmation detailing the site and products serviced. We'll provide a time-captured signature, showing exactly when your service was carried out and who acknowledged our visit, so you can be sure you've got a complete service audit trail.

### Hygienic

The Maxi is pedal operated, removing the need for hand contact and reducing the risk of cross infection. They are also treated with EnviroSan® Active, a safe and effective germicide which incorporates a natural enzyme to combat harmful bacteria and odour.

Size	Capacity	Construction
54.1cm x 60.3cm x 35.9cm	60 litres	Polypropylene

This reduces bacteria levels by 99.99%, is certified against HIV, Hepatitis B and Hepatitis C, and is the only germicide to conform to BS1276 and BS13727.

### Practical

Made from strong polypropylene, these units are scratch resistant with a smooth outer finish.

### Efficient

The Maxi unit is provided with our 24/7 free emergency product service, helping you deal with unforeseen issues or unexpectedly high visitor numbers.

We're here 24/7 to take your calls, and will carry out an emergency service on the next working day (working days are Monday- Saturday).

### Fully Compliant

PHS are fully licensed and compliant with all waste management regulations including Duty of Care.

A full auditable waste trail is provided, offering peace of mind that your sites' waste is being dealt with safely and with respect for the environment.
