

> MICRAKLEEN

Exclusive to **phs**, this natural, biological urinal cleaner is ideal for use in conjunction with the **ECOSHIELD**, Spectrum Sleeve and **ECOMAT**.

Biological Advantage

Made from the same natural enzymes as the Nurazyme™ bio-block in the **phs ECOSHIELD**, Spectrum Sleeve and **ECOMAT**, **MICRAKLEEN** complements these products perfectly. **MICRAKLEEN** utilises bacteria that produce protease and uricase enzymes. Protease enables the bacteria to digest proteinaceous matter which would otherwise produce malodours, whereas uricase degrades uric acid, making it more water soluble, leading to a significant reduction in the build-up of uric acid scale. This avoids unsightly deposits and potential pipework blockages.

Feature Subhead :

Helps remove urine based odours

Completely natural enzyme based product

Highly effective cleaner

Available in 750ml trigger sprays and 5 litre refill bottles

Multi-use

MICRAKLEEN can be used throughout the washroom, both in trigger sprays (no dilution necessary) for use on bowls, surfaces and tiles or for mopping the floor (should be diluted 40:1).

Eco-friendly

The **MICRAKLEEN** is a natural, neutral biological cleaner that doesn't harm the environment. It also removes the need to use any other harsh chemical cleaners.
