

> phs OXY-Supreme

Oxygenate your senses with our supreme new offering.

phs OXY-Supreme uses technology that guarantees continuous and consistent levels of fragrance throughout the cartridge scent life.

Consistent. Constant. Reliable. **Supreme** Scent.

Key features:

- Eliminates malodors instead of masking them.
- Non-aerosol - cartridges are not pressurised, therefore easy and safe to store or transport
- LED light indicators provide cartridge and battery replacement reminders.
- 60-day fragrance (6pa service).
- All six scent cartridge options are IFRA, and REACH (Europe and UK) compliant, as well as being 100% recyclable.
- No added VOCs, Solvents, alcohols or propellants.

Dimensions

H 60mm W 50mm D 40mm

A supremely intelligent system

phs OXY-Supreme is an intelligent air freshener using oxygenated fuel cell technology.

The oxygen generator releases a precise dose of oxygen non-stop, which squeezes the bladder displacing the fragrance. A continuous measured dose is delivered onto a cellulose pad allowing the fragrance to be dispersed into the environment.

> Choose your scent

NEUTRALOX SUPER

An extremely high concentrate of neutra-lox malodour eliminator with just a hint of lemongrass fragrance. This is the ideal choice for areas where fragrance is not desired.

CHARM

A fantasy melon fragrance modified with cool green notes, a hint of citrus and a slightly floral background.

TANG

An intensely fruity perfume with hints of orange supported by warm spices.

SPA

A fresh, invigorating scent with fragrant lavender and spicy herbs

GLOW

Juicy black cherries, with a hint of almond, plum, vanilla and cinnamon spice

ELATE

A designer fragrance that seamlessly weaves sweetness of ripe fruits with the delicate beauty of blooming florals, enveloped with Musk notes.

Benefits

- **phs OXY-Supreme** refills have no added VOCs, contain no harmful propellants and contain only pure fragrance oil.
- The fragrance intensity will remain consistent from Day 1 to the end of the cartridge life meaning little to no input needed from employees.
- The unit is suited to high footfall areas due to its reliable supreme fragrance.
- **phs OXY-Supreme** is aerosol free and has no added VOCs, making it the air freshener of choice for employees who place heavy emphasis on employee well-being.

Guaranteed **supreme** fragrance

Unlike other traditional air fresheners, **phs OXY-Supreme** uses advanced, innovative fuel cell technology with a silent operation feature. The supreme has few moving parts producing zero harmful emissions.

OXY-Supreme powered fuel cells are an innovative development of hydrogen-powered fuel cells which improve the reliability of the air care system to deliver pure fresh fragrance and odour neutraliser continuously for the duration of the 60 day cartridge life.

The patented gas cell releases a precise dosage of Oxygen. The Oxygen is pumped into the sealed chamber and displaces the fragrance from the bag, delivering a precise dose of fragrance onto the emanator pad. Fragrance molecules are dispersed by the natural air movement within the area or room releasing the chosen supreme scent reliably and consistently.
